Thank you for attending Reading Muhlenberg Career & Technology Center on this special day. This is our 3<sup>rd</sup> event in support of our Career & Technical Student Organizations (CTSO), in an effort to offset costs for their annual District, State and National Skill and Leadership Conferences. Also, a portion of the proceeds will be directed towards the RMCTC Foundation, which provides scholarship money to our students. Activities such as this are a great way to show the community our wonderful students in action and to showcase our state-of-the-art facility.

Although our advertisement for this event centered on the “Car Show”, in all reality, this event was indeed a joint effort by many Reading Muhlenberg CTC staff members and our career and technical programs, they are:

- Advertising Design & Commercial Art – car show logo design
- Auto Body Repair – painting of trophies
- Automotive Technology – car wash
- Baking & Pastry Arts – baked goods
- Cabinetmaking & Finish Carpentry – plaques and trophy stands
- Culinary Art – pancake breakfast
- Health Nursing Careers – health fair
- Health Medical Professions – massages
- Horticulture – spring flower sale, designing and packaging pick-a-ticket baskets
- Information Technology Applications – design of coupons, car information, sponsorship flyer
- Machine Shop Technology – manufacturing of trophies
- Painting & Decorating – directional signs
- Printing & Graphic Communications – printing of banners, flyers, car show literature, note pads
- Public Safety & Security – traffic design & control
- Welding & Metal Fabrication – welding of trophies

Our students extend a special thank you to our business and industry partners, vendors and other individuals who supported this year’s event. These individuals are listed within this flyer; therefore, please consider them if you need their assistance in their area of expertise.

Besides the CTC programs already mentioned, this was truly an effort that could not have been made without the entire RMCTC staff. This includes the support staff that monitored donations, answered questions, administered registrations and coordinating several behind the scene activities. The teachers networked with vendors and stakeholders for sponsorship support, the business office managed the finances, and lastly, but most importantly, the students’ participation within each program area. It was definitely a school-wide effort!

Finally, we want to extend our appreciation to our visitors and participants for being here today, the support of our stakeholders for their kind donations and to the entire RMCTC staff, for their support and assistance today and throughout the planning stages. Please check our web-site at [www.rmctc.org](http://www.rmctc.org) or “like us” on Facebook!
