## **READING MUHLENBERG CAREER &**

### **TECHNOLOGY CENTER MISSION STATEMENT**

The Reading Muhlenberg Career & Technology Center, in partnership with our diverse community, sponsoring districts, and business and industry, is committed to providing quality career and technical education, resulting in opportunities for students to gain employment, pursue post-secondary education, and develop an appreciation for lifelong learning.

### **VISION STATEMENT**

To empower Reading Muhlenberg Career & Technology Center students with the technical knowledge and skills to confidently pursue a career.

### **BELIEFS**

- We believe in valuing the diversity of each student
- We believe education leads to opportunity
- We believe quality education starts with quality leadership
- We believe a career and technical education is a critical component of workforce development
- We believe technology is vital to learning and will help students connect with a rapidly changing world
- We believe technology must be embraced by teachers as a tool to help prepare students to meet current and future labor market demands
- We believe in providing all students with a positive educational experience
- We believe students should feel proud of what they have accomplished each day
- We believe students will be provided the opportunity to achieve their highest potential
- We believe students will be provided the opportunity to acquire and cultivate leadership skills
- We believe in providing students with a safe school environment
- We believe the success of a student is enhanced by parents and/or other influential adults through their support and involvement
- We believe in encouraging students to maintain a lifelong affiliation with the school
- We believe change is an ongoing process, not an event, and is fundamental for building quality programs of study
- We believe instruction must accommodate individual student learning styles
-

# Building & Property

- Construct, erect, install, and repair all residential building components.
- Operate power tools, read construction drawings, produce estimates, and evaluate and perform project cost analysis.
- Earn industry-recognized, valuable certifications, such as OSHA, PBA, and fork lift certifications.
- Fabricate, weld, and machine metal materials.

## Job Titles – Career Pathways

13-1051 Cost Estimator  
47-2061 Construction Laborers  
47-2152 Plumbers, Pipefitters and Steamfitters  
47-3012 Helpers — Carpenters  
47-3013 Helpers — Electricians  
49-9042 Maintenance and Repair Workers, General  
49-9098 Helpers — Installation, Maintenance, and Repair Workers  
51-4121 Welders, Cutters, Solderers, and Brazers

## CTC knowledge transfers to college credits at:

Commonwealth Technical Institute  
Community College of Allegheny County  
Luzerne County Community College  
Orleans Technical Institute  
Pennsylvania College of Technology

## Student Certifications

NOCTI – National Occupational Competency Testing Institute Certification

\* Building Property Maintenance

Forklift Operator Certification

OSHA – Safety Certification

PBA – Pennsylvania Builders Association

## Accreditations

PBA – Pennsylvania Builders Association

## **Instructor – Mr. Richard Tylka**

### **Biography**

I would like to introduce myself as your student's teacher at Reading Muhlenberg Career and Technology Center. My name is Richard Tylka and I'll have the honor of teaching your student for the next few years. I have lived in Berks County my whole life, and have been involved in the trades since I was 18. I worked maintenance at a local camp as a college student. I have a bachelor's degree from Millersville University and have a background in education. I started my own contracting business and did general contracting before moving into flooring and finish carpentry.

### **Education**

Bachelor's Degree in Earth Science from Millersville University

### **Work Experience**

I've been a self-employed contractor for a dozen years.

### **Hire Date**

2022

Dear Parents,

I would like to introduce myself as your student's teacher at Reading Muhlenberg Career and Technology Center. My name is Richard Tylka and I'll have the honor of teaching your student for the next few years. I have lived in Berks County my whole life, and have been involved in the trades since I was 18. I worked maintenance at a local camp as a college student. I have a bachelors degree from Millersville University and have a background in education. I started my own contracting business and did general contracting before moving into flooring and finish carpentry.

BPM students will have a busy few years as we cover carpentry, plumbing, electrical, roofing, welding and concrete/bricklaying. We approach learning using both hands on classroom theory. Most days your student will be in our workshop using up to date equipment and techniques to master these skills and build projects that will test their knowledge and expand their skills. Classroom work will focus on the theory behind workshop learning as well as math, writing skills and applicable science skills.

Since we will be working hands-on your students will be wearing a mandatory uniform. They will receive two t-shirts and boots as part of the program. The only thing that will need to be supplied is pants suitable for work. Jeans or khakis are preferable, two pairs would be ideal. Each week laundry service is provided so their uniforms will be cleaned and returned to them. If you need any assistance or if they need a spare shirt or pants we have some back ups that will be lent out. I don't want to have their regular school clothes get soiled or ruined so the uniform is an important part of the learning experience. This will also teach them what to expect when they enter the workforce and appropriate attire is demanded.

Students are expected to maintain a professional attitude in this course as that is what they are preparing to enter. Professionalism and the ability to make sound ethical and business practices are expected from our students. They will be expected to be on time and ready to learn. We deal with potentially dangerous activities and coming in ready to learn is necessary to keep a safe and productive learning environment.

Thank you for allowing your student to step out of the usual school reality and learn important hands-on skills and ways to succeed in their future career. I will do my best to make sure they learn and are prepared to enter the workforce or whatever their goal is after high school. I hope we can work together to ensure their future success. I will reach out if your student is having any trouble so we can come to an effective solution. On the same note if you have any issues you wish to discuss please don't hesitate to contact me at [rtylka@rmctc.org](mailto:rtylka@rmctc.org) or call (610)921-7300 and ask to speak with me.

Sincerely,

Richard Tylka

Instructor-Building and Property Maintenance RMCTC

## Program Planning Tool

Program Title: CIP 46.0401 BUILDING PROPERTY MAINTENANCE

Student Name: \_\_\_\_\_

This document has been designed as a tool to facilitate student placement decisions and provides important information about the program. The chart on the reverse side is designed to assist in the identification of necessary skills, present educational levels, and supports, if any, that are needed to foster program success.

### ***Program Completion Requirements***

#### ***A successful student will...***

- Secondary Academic Course Requirements: The PA Dept. of Education's focus is to ensure every student is college and career ready, therefore all students are recommended to follow a college prep sequence of academic classes. Courses such as applied math or general science are not appropriate for this program. PDE's goal is to have all students perform at the competent or advanced level on the Keystone Exams and Program of Study end-of-program assessment (NOCTI).
- Complete an Occupational Competency Assessment (i.e. NOCTI end-of-program exam) and score at the "competent" or "advanced" level. This end-of-program exam will cover the full scope of the program of study curriculum and includes (1) a multiple choice test and (2) a performance test consisting of occupational related tasks scored and evaluated by industry judges.
- Earn a minimum of one industry recognized certification. Students will be encouraged and expected to earn all recognized industry certifications that include scope of the curriculum. Accommodations are not permitted for industry certifications and are OSHA and Pennsylvania Builders Association Skills Certificates.
- Complete the approved program curriculum and earn a minimum of one RMCTC Job Title aligned with the student's career objective. Job titles are identified on the program task list, aligned with local workforce needs and high priority employment occupations, and annually reviewed and approved by the program's occupational advisory committee.
- Successful completion of Keystone Exams as determined by sending school district.
- Maintain a 95% attendance rate or better.
- Transition on to a post-secondary institution, military or related fulltime employment aligned to their CTC program of study.

### ***Instructional Process/Specifications***

#### ***A successful student will...***

- Perform a wide variety of tasks in a laboratory environment with equipment consistent with industry standards. Up to 25 students are assigned to work "independently" and in "small teams". Students progress by using learning guides in a self-directed manner. The laboratory experiences for students in this program include the basics of several building trades. Students will be required to use a variety of hand and power tools that will include hammers, files, wrenches, trowels, power saws, table saws, power drills, drill presses, jointers, routers, blow torches, welding equipment, workshop presses, pipe cutters, and circuit testers.
- Students will also be required to use ladders and scaffolding. Using this equipment requires self-discipline and strict adherence to rules to ensure safety of self and others. The laboratory simulates a real working environment therefore students will be exposed to the noise levels, dust, debris, and fumes associated with the occupation.
- Participate in Career & Technical Student Organizations including HBA, SkillsUSA and/or National Technical Honor Society.
- Participate in a paid or unpaid work based learning related to the Program of Study (cooperative education, clinical internship, and/or job shadowing).
- Participate in classroom theory and laboratory applications for generally 2 ½ hours each day; students will spend 30% of their time in classroom theory and 70% of their time doing laboratory applications and live work.
- Complete written and performance tests (a minimum of one written quiz per week and a minimum of 2 tests per quarter). Students will be evaluated weekly on occupational skill performance using rubrics. Students will also be evaluated daily on work ethics. Progress is measured by test performance, task completion and work ethic.
- Read and study textbooks and technical manuals. Most textbooks are written at a 10th to 11th grade reading level and most technical manuals are written at a higher level.
- Complete homework on time. Homework is issued a minimum of two nights a week and usually can be completed in one hour or less. Homework typically involves chapter or workbook assignments, on line research assignments and at least two five paragraph essays per report period.
- Purchase appropriate work and safety attire, tools, equipment and reference books.

## Program Planning Tool

CTE Requirements	Present Educational Ability/Level	Support Needs
<p><b>Program Completion</b> – Strong self-determination skills and understanding of personal strengths and weaknesses. Ability to meet industry established standards of performance, complete the program of study without curriculum modifications, and earn industry certifications without testing accommodations.</p>		
<p><b>Reading and Language Arts Level</b>- Text and manuals written on a 10<sup>th</sup>-11<sup>th</sup> grade reading level. Proficient on end-of-course exam (Keystone). Must have ability to read, understand and apply engineering science and technology, to include technical plans and blueprints. NOCTI assessment and industry certification exams require a proficiency in English language skills</p>		
<p><b>Math Level</b> - At grade level and proficient on end-of-course exam (Keystone). Knowledge of arithmetic, algebra, geometry and their applications. Ability to calculate materials using floor plans, elevations and sectional plans. Ability to apply construction geometry; calculate board and square feet, linear measures, square measures, and cubic measures; convert fractions, decimals, and percents; simplify measurements. Ability to calculate electrical loads and perform electrical mathematics. Ability to do precise measuring and dimensioning according to blueprints and drawings. Ability to use math to solve problems.</p>		
<p><b>Aptitude</b> – Mechanical, numerical ability, critical thinking, inductive reasoning, visualization and spatial relations. Problem solving and troubleshooting skills.</p>		
<p><b>Safety &amp; Physical</b> – Manual dexterity, multi-limb coordination while standing, sitting or lying down, arm-hand steadiness and finger dexterity. General body coordination and stamina that requires considerable use of arms, legs and whole body. High degree of self-discipline and focus needed for safety around moving equipment, hand tools, power tools and other equipment found in the industry. Physical strength and stamina with the ability to lift 50 lbs. overhead. Ability to work in all weather conditions, work independently, have good eye/hand coordination, color discrimination, no fear of heights or working in closed spaces.</p>		
<p><b>Interpersonal/ Social</b> – Active listening, communication skills with supervisors and peers, ability to work alone or cooperatively on a team.</p>		
<p><b>Other Occupational/Program Considerations</b> – Teamwork, excellent measuring skills, Learning and work environment includes various chemical and wood smells and dust, dirt and debris, loud and sometime startling noises, ongoing background noise, moving people and construction equipment, small spaces, interior or exterior work factors/environmental factors, scaffolding and ladders.</p>		

# Scope and Sequence Building Property Maintenance 46.0401

Academic Subjects – Career success and postsecondary education success require the same level of college prep coursework. The Pennsylvania Department of Education’s (PDE) focus is to ensure that every student is prepared for college and a career. Academic courses such as applied math or general science cannot be listed on the program’s scope and sequence. PDE’s goal is to have all students perform at the competent or advanced level on the PSSA, and earn the Pennsylvania Skills Certificate on the end-of-program assessment.

Subject (Hours)	Secondary School				Postsecondary Institution			
	Grade 9 (Hours)	Grade 10 (Hours)	Grade 11 (Hours)	Grade 12 (Hours)	First Semester	Second Semester	Third Semester	Fourth Semester

**Competency Task List – Secondary Component**  
**Building/Property Maintenance & Manager CIP 46.0401**  
**High School Graduation Years 2026, 2027, 2028**

**100 Safety**

Item	Task
101	Follow general shop safety procedures.
102	Wear personal protective equipment.
	RESERVED (103)
104	Identify the components of the Occupational Safety and Health Act (OSHA) and state its purposes.
105	Lift and carry objects using ergonomics.
106	Follow Safety Data Sheets (SDS).
107	Follow general ladder safety.
108	Identify scaffolding and other elevated work surfaces.
109	Identify classes of fires and types of fire extinguishers.
110	Follow fall protection safety procedures.
111	Identify the requirements of building permits.

**200 Building and Property Maintenance**

Item	Task
201	Follow building and property maintenance (BPM) lab rules and procedures.
	RESERVED (202)
203	Follow safety rules for tools, machines, and processes.
	RESERVED (204)
205	Identify lab tools and equipment.
206	Keep daily project logs with times.
	RESERVED (207-209)
210	Use safe methods of storing materials and supplies.
211	Use measuring devices.
212	Estimate quantities of materials.
	RESERVED (213-214)

**300 Carpentry and Repairs**

Item	Task
301	Identify common building materials.
302	Read and interpret building plans.
303	Prepare a bill of material.
304	Layout stock.
305	Layout angles.
306	Find the center line of stock.
307	Use a sliding T-bevel to transfer an angle.
308	Transfer a cut line using a marking gauge.
309	Test a level for accuracy in the vertical and horizontal positions.
310	Check a horizontal surface using a level.
311	Check a vertical surface using a level.
312	Snap a chalk line.
	RESERVED (313)
314	Bore holes with various drill bits.
	RESERVED (315)
316	Select nails for a specific job.
317	Drive and remove nails using a claw hammer.
	RESERVED (318)
319	Pull nails with a wrecking bar or other nail removal tools.
	RESERVED (320)
321	Select and install screw-type fasteners.

322	Identify fasteners and anchors for various uses.
	RESERVED (323-326)
327	Check for square.

#### 400 Portable Power Tools

Item	Task
401	Follow safety rules and procedures for using portable power tools.
402	Operate portable electric and battery-operated drills.
403	Operate a metal cutting (abrasive disc) chop saw.
404	Operate a portable jigsaw and reciprocating saw.
405	Operate a router.
406	Operate a disc grinder.
407	Operate an oscillating multi-tool.

#### 500 Table Saws

Item	Task
501	Follow safety rules and procedures for using a table saw.
502	Rip stock on a table saw using a rip fence.
503	Crosscut stock on a table saw with a miter gauge.

#### 600 Drill Presses

Item	Task
601	Follow safety rules and procedures for using a drill press.
602	Drill holes in metal using a drill press.
603	Drill holes in non-metallic materials using a drill press.
	RESERVED (604)

#### 700 Compound Miter Saws

Item	Task
701	Follow safety rules and procedures for using a compound miter saw.
702	Cut stock to length on a miter saw.
703	Cut angles on a miter saw.
704	Cut compound angles on a miter saw.

#### 800 Bench Grinders

Item	Task
801	Follow safety rules and procedures for using a bench grinder.
802	Sharpen cutting tools on a bench grinder.
803	De-burr stock on a bench grinder.

#### 900 Tool and Machine Maintenance

Item	Task
901	Replace or repair broken tools.
902	Examine power tool and cords for damage and replace or repair.
903	Discuss lubricating moving parts of power tools as recommended by the manufacturer.
904	Replace saw blades and other cutting tool accessories when dull.
905	Sharpen edge cutting tools.
906	Remove dust from power tool stators and rotors.
907	Remove paint, oils, water, and lubricants from tool handles and power tool housings and chassis.
908	Examine extension cords for damage and replace or repair male/female cord ends.

#### 1000 Structural Floors

Item	Task
1001	Identify floor members.
1002	Install joist hangers.
1003	Install or replace bridging between joists.
1004	Repair (remove or replace) plywood sub-flooring on joists.
1005	Describe platform, balloon, and post and beam framing.
1006	Layout and install sill plates.

1007	Layout and install floor joists and openings.
------	---

1008	Layout and install subflooring.
------	---------------------------------

### 1100 Roofs

Item	Task
1101	Identify roof members.
1102	Identify roof types.
1103	Install and repair roof sheathing.
1104	Install roofing materials on shingled roofs.
1105	Remove and replace damaged shingle(s).
1106	Apply sealing compounds and caulking.
1107	Install common rafters.
1108	Install and repair roof flashings.

### 1200 Stairs and Staircases

Item	Task
1201	Repair stair stringers.
1202	Repair stair risers and treads.
1203	Install and repair a stair railing.
1204	Layout and install a stair stringer.
	RESERVED (1205)
1206	Repair a balustrade.

### 1300 Doors and Windows

Item	Task
1301	Install a lock set.
1302	Hang an interior door.
1303	Cut and install molding.
1304	Trim a door jamb.
1305	Trim a window, stool, apron, casing, and extension jambs.
1306	Cut a gain for butt hinges and install butt hinges.
1307	Cut a miter using a miter saw.
1308	Set finish nails with a nail set.
1309	Assemble miter joints by nailing.

### 1400 Interior Walls

Item	Task
1401	Cut drywall with a utility knife.
1402	Install and repair drywall board.
1403	Install metal corners prior to finishing drywall.
1404	Tape and smooth drywall.
1405	Cope an inside corner.
1406	Miter an outside corner.
1407	Install rubber cove base.
1408	Repair suspended ceiling grids and tiles.
1409	Describe installation of metal studs.

### 1500 Exterior Walls

Item	Task
1501	Install and repair siding components.
1502	Install, repair, and clean gutter and spouting components.
1503	Identify wall frame members.
1504	Layout, cut, and install wall frame members and wall openings.
1505	Install siding underlayments, housewraps, and flashings.

### 1600 Masonry Skills

Item	Task
	RESERVED (1601)

1602	Identify masonry tools.
	RESERVED (1603)
1604	Identify safety hazards for masonry workers.
	RESERVED (1605-1606)
1607	Explain cutting block and brick with a masonry hammer and brick set.
	RESERVED (1608-1610)
1611	Explain striking off a block wall.
1612	Explain cleaning mortar from block and brick work.
	RESERVED (1613-1616)
1617	Identify anchors for masonry repair jobs.

### 1700 Concrete

Item	Task
1701	Build forms for a concrete slab.
1702	Mix concrete.
1703	Place a concrete slab.
1704	Float concrete.
1705	Finish concrete.
1706	Discuss patching and repairing concrete.
1707	Discuss re-setting masonry anchors.

### 1800 Floor and Wall Tile

Item	Task
1801	Estimate the quantity of tile needed.
1802	Use tile terminology and determine applications.
1803	Use adhesives and mortars.
1804	Use tile tools and equipment.
1805	Discuss and install various types of tile.

### 1900 Residential Electrical Circuits

Item	Task
1901	Apply the National Electric Code (NEC) to common installations.
1902	Practice electrical safety.
1903	Use electrical tools.
1904	Interpret electrical drawings.
1905	Identify common electrical symbols.
1906	Use a multimeter to identify voltage, amperage, and continuity.
1907	Identify wire sizes and ampacities.
1908	Identify wire types.
1909	Use wire nuts to connect or splice wire.
1910	Discuss changing and proper disposal of fluorescent bulbs.
	RESERVED (1911-1912)
1913	Reset an electric circuit breaker.
1914	Install a ground fault circuit interrupting outlet.
	RESERVED (1915)
	RESERVED (1916)
1917	Install an adjustable bar hanger.
1918	Install a light fixture.
1919	Install a duplex receptacle.
1920	Install a single pole switch circuit.
1921	Install a split wire duplex receptacle.
	RESERVED (1922)
1923	Install a recessed light.
1924	Install outlet boxes.
	RESERVED (1925)

1926	Install Romex to plastic and metal boxes.
	RESERVED (1927)
1928	Install a three-way switch circuit.
1929	Install a four-way switch circuit.
	RESERVED (1930-1932)
1933	Install old work boxes.
1934	Check and replace a 24-volt transformer.
1935	Install circuit breakers.
	RESERVED (1936)
1937	Perform proper grounding techniques.
	RESERVED (1938)
1939	Install low-voltage wiring.
1940	Discuss coaxial cable for television reception.
1941	Install cabling for computer workstations.
1942	Discuss replacing or installing a ceiling fan.
1943	Understand basic electrical theory and electrical services.

### 2000 Residential Plumbing Systems

Item	Task
	RESERVED (2001-2002)
2003	Interpret plumbing symbols.
2004	Interpret plumbing drawings.
2005	Identify types of pipes.
2006	Identify plumbing pipe fittings.
	RESERVED (2007-2009)
2010	Sweat solder copper pipe and fittings using propane, MAPP, or Prestolite gas.
2011	Install and replace copper pipe and fittings.
2012	Solvent weld polyvinyl chloride (PVC) plastic pipe.
2013	Install and repair PVC plastic pipe and fittings.
2014	Repair wastewater drains.
2015	Install, replace, and repair commodes.
2016	Install lavatories and sinks.
2017	Hook up water supply lines and wastewater lines.
2018	Install or replace a garbage disposal unit.
2019	Clean and/or replace wastewater traps and pipes.
2020	Replace and repair a faucet set.
2021	Identify, install, and/or replace valves.
2022	Use compression tools for copper pipe.
2023	Install and replace Cross-linked Polyethylene (PEX) pipe and fittings.

### 2100 Finishing Materials

Item	Task
2101	Protect furniture, materials, and surrounding surfaces from overspray and paint spatter.
2102	Tape door and window trim to protect from finishing materials.
2103	Prepare a surface prior to applying a finish.
2104	Stain wood surfaces with wiping oil stains.
2105	Apply a finish material with a brush and a roller.
	RESERVED (2106)
2107	Apply oil base paints.
2108	Apply acrylic based paints.
	RESERVED (2109)
2110	Clean paint brushes and rollers.
2111	Investigate the use of high velocity low pressure (HVLP) spray painters.

### 2200 Reserved

## 2300 Portable Circular Saws

Item	Task
2301	Use a portable circular saw.
2302	Rip stock with a portable circular saw.
2303	Cross cut wood using a portable circular saw.
2304	Cut miters with a portable circular saw.
2305	Plunge cut with a portable circular saw.

## 2400 Environmental Control Systems

Item	Task
2401	Identify the scales on a thermometer.
	RESERVED (2402)
2403	Define British Thermal Unit (BTU).
2404	Describe types of heat transfer.
2405	Identify the components of a gas fuel heating system.
2406	Identify the components of an oil fuel heating system.
2407	Describe filter replacement requirements for forced air systems.
2408	Replace a thermostat.
2409	Discuss various insulation materials, installation techniques, and R values.
2410	Discuss air quality, ventilation, and air infiltration.

# STUDENTS OCCUPATIONALLY & ACADEMICALLY READY

- *Earn college credits which will save you money on tuition*
  - *Shorten college attendance*
  - *Get on the right career path*
  - *Enter the job market prepared*
  - *Get a consistent education*
- *See your CTC School Counselor for More Information*

## TO QUALIFY CTC STUDENTS MUST:

1. Earn a high school diploma, achieve a minimum 2.5 GPA on a 4.0 scale in your CTC program and complete the PDE approved Program of Study.
2. Earn the industry certifications offered by your program (if applicable).
3. Achieve Competent or Advanced on the NOCTI End of Program Assessment.
4. Achieve proficiency on ALL of the Program of Study Competency Task List.
5. Provide documentation to Postsecondary Institution that you have met all of the requirements!

Find out more about the colleges offering course credits you can earn while attending RMCTC. Go to [collegetransfer.net](http://collegetransfer.net), search: PA Bureau of CTE SOAR Programs, and find your program by CIP Code.

*\*To receive college credits, qualifying students have three years from their date of graduation to apply and matriculate into the related career and technical program at a partnering institution.*

# Building Property Maintenance Behavior and Safety Rules

1. You must wear safety glasses, cover goggles, or face shields after entering the shop.
2. Boots must be worn in the shop. No one **wearing sandals** will be allowed to enter any shop area. The minimum footwear must cover the entire foot.
3. Do not operate any equipment unless you are familiar with its operation and have been authorized to operate it. Questions regarding the use of equipment should be directed to the shop instructor.
4. No work may be performed using power tools unless at least two people are in the shop area and can see each other.
5. Use the shop vacuum cleaner to remove chips. Never use compressed air guns to clean clothing and hair.
6. In case of injury, no matter how slight, report it to the Instructor.
7. Contact with harmful chemicals should be reported immediately to the instructor.
8. Machines must be shut off and locked-out before servicing.
9. Do not wear ties, loose clothing, jewelry, gloves, etc. when operating shop equipment.
10. Wear appropriate clothing for the job (i.e. do not wear short sleeve shirts or short pants when welding.)
11. Do not work in the shop if you are tired, or in a hurry.
12. Never indulge in horseplay in the shop areas.
13. All machines must be operated with all guards and shields in place.
14. Do not use your bare hands to remove chips and shavings from the machine, use a brush or hook.
15. Never use a rag near moving machinery.
16. Do not strike a hardened tool or any machine with a hammer.
17. Practice cleanliness and orderliness in the shop areas. Clean up before you leave!
18. Keep the floor around machines clean, dry and free from trip hazards. Do not allow chips to accumulate. Use the shop vacuum cleaner.
19. Think through the entire job before starting.
20. Before starting a machine, always check it for correct setup and always check to see if the machine is clear.

21. Do not drink alcoholic beverages or use drugs that will alter your state of mind before or during a work session in the machine area. Do not bring food/snacks into the shop. If using medication that will affect you mentally or physically please notify the instructor

22. Don't rush or take chances. Obey all safety rules.

23. If you have not worked with a particular material before, check the materials safety data sheet (M.S.D.S.) for any specific precautions to be taken while working with the material. Also, ask the shop personnel before cutting any unusual material.

24. Heavy sanding and painting should only be done in well ventilated areas.

25. Follow all appropriate precautions when working with solvents, paints, adhesives or other chemicals. Use appropriate protective equipment. Review the M.S.D.S.

26. Check the condition of power cords and plugs on portable tools before using them. Do not use a tool that has a worn or damaged power cord/plug.

27. Always store oily rags in an approved metal container.

**I have read, understand, and agree to comply with all safety policies. If I am unclear or unsure of anything I will ask the instructor before I use any industrial machinery.**

# Building and Property Maintenance Tool List

Students enrolled in Building Property Maintenance will receive instruction on how to safely use the following industrial equipment. Students will be tested on the proper use of equipment and general safety. Each student must pass these safety tests with a 100% before having authorization to use the equipment. Students are expected to treat equipment with utmost respect and follow all safety guidelines immediately when entering the Building Property Maintenance classroom limits.

**The following is a list of tools on which each student will receive instruction:**

- Table Saw
- Horizontal Band Saw
- Vertical Band Saw
- Compound Miter Saw
- Radial Arm Saw
- Belt Sander
- Metal Lathe
- End Mill
- Drill Press
- Vertical Press
- Metal Shear/ Roller/ Pan
- Plasma Cutter
- Mig Welder
- Arc Welder
- Propane/ Acetylene Torch
- Circular Saws
- Corded/Cordless drills
- Nail Guns
- Grinders
- Reciprocating Saw
- Band Saw
- Various Hand Tools

## GRADE REPORTING

**Purpose:** The intent of this grading procedure is to provide a student grade that accurately reflects student achievement. Progress is measured in the areas of work ethics, knowledge and the practical skills aligned to the program area learning guides. Student performance for learning guide activities and assignments are reflected in the knowledge grade. Students will be evaluated according to established program standards on an individual basis. The student information system automatically calculates student grades using the following formula:

Work Ethic	40%
Knowledge	<u>60%</u>
	100%

Teachers must be able to justify grade percentages in the event of inquiries or concerns.

### Interpreting a Grade:

**Work Ethics Grade (40%):** Each school day, every student receives a Work Ethics or daily grade. Criteria that compromise these grades are safety, student behavior, preparation/participation, productivity or time on time on task, professional appearance and extra effort. The Work Ethics grade range is based on a 0 to 10 model that students may earn each day depending on how many criteria they criteria they satisfactorily meet.

**NOTE: Impact of Absenteeism, Tardiness/Early Dismissals** – The direct effect of absenteeism on a student’s grade will be through the Work Ethic component of the grading formula. If a student is Tardy or has an Early Dismissal the Work Ethic can reflect a deduction in points earned for that class period. The instructor may change this value as they see fit.

**Knowledge Grade (60%):** Throughout the marking period, a student’s cognitive knowledge about various career-specific topics will be evaluated and recorded by the instructor. Examples of knowledge activities include: lab/shop assignments, homework, quizzes, tests, and research activities. The knowledge grade range is based on actual points earned divided by the total accumulative points.

**Skill (Learning Guide):** A task list guides every RMCTC program. Tasks are evaluated on a scale with a 4 or 5 considered proficient. Learning guides are normally aligned to lab assignments or shop projects where a student will physically perform a task. The student and teacher will discuss, at the beginning of each quarter, student expectations and the required tasks that must be completed or “contracted” by the end of the marking period. This allows a student to work productively with the expectation to make constant progress during the marking period. All assignments, activities and rubrics associated with learning guides are documented in the “knowledge” grading component. It is important to note that poor productivity will have a negative impact on a student’s grade.

**NOTE:** For the purpose of students earning a job title associated with their program area, teachers track students’ skill/task work. Teachers identify specific criteria to evaluate each task performed, ranging from a 0 to 5 (not completed to mastery). Students must earn a 4 or 5, in order to credit the task towards earning the specific job title. Students have the opportunity to revisit a task multiple times until successfully receiving credit. The job titles a student earns will be listed on the student’s RMCTC certificate that is awarded at Senior Recognition Night.

Student grades will be reflected as a percentage, and will be reported directly to the student’s sending school to be added to the report cards.

Final Grade average is based on the student’s four (4) numerical marking period grades.

If a student has three (3) marking period grades of “F” consideration will be given to that student not passing for the year. If a student is on an **upward trend** at the end of the school year, this **may** justify having the student pass for the year. If the opposite is true, and the student is on a **downward trend**, the student may be asked to select a new program or return to the sending school on a full-time basis.

The individual teacher must evaluate each student's achievements in terms of the expected goals for their program area.

Failure to complete assignments, frequent lateness or absence, and demonstrated indifference to school are major contributors to student failures. **Blatant refusal** to attempt or to complete a significant number of course requirements may lead to poor performance and possible removal.

The following divisions are given as a guide to recording and interpreting the grading system. It remains for each teacher to objectively and fairly rate each student, not based upon personality, but performance.

**Determination of Grades:** Teachers will give thorough consideration using all grading components in determining students' grades to both class work and test results.

**A = Excellent**

1. This grade represents **superior work** and is distinctly an honor grade.
2. The excellent student **has reached all course objectives** with high quality achievement.
3. The excellent student displays unusual effort and works willingly and effectively in reaching required objectives.

**B = Good**

1. This grade represents **above average** quality achievements.
2. The good student **has reached a large majority of course objectives.**
3. The good student is industrious and willing to follow directions.

**C = Average**

1. This grade represents **satisfactory** achievement.
2. The average student **has reached a majority of course objectives.**
3. The average student is cooperative and follows direction, yet extra effort and improvement are needed for more complete mastering of the material.

**D = Passing**

1. This grade represents a **minimally satisfactory** achievement.
2. The failing student **has not reached necessary course objectives.**
3. This achievement level indicates there is a great need for improvement, daily preparation and improved dedication and attendance.

**F = Failure**

1. This grade represents **unsatisfactory** achievement.
2. The failing student has **not reached necessary course objectives.**

**Incomplete Grades:** Incomplete grades must be updated no later than ten (10) days from the close of the marking period. As soon as the work is completed and the grade is available, it must be reported to the appropriate person.

**Failures:** Students who receive a failing final grade in a program area are permitted to repeat that program, but are urged not to do so. If this situation presents itself, students and parents are advised to consider an alternative program which is probably more suited to the student's true interests and aptitudes are not merely satisfying a short-term or unrealistic desire.

**Attendance and its Impact upon Grades:** The importance of regular school attendance and its positive impact upon students' performance grade cannot be overstated. If a student is absent, he or she does not have the opportunity to keep pace with their classmates and must work independently to acquire the information missed during any absence. Regardless of how well a student performs when he/she is present, habitual absenteeism usually results in a failing performance grade. This situation is not unlike the conditions of the business or industry for which the student is being trained.

**Makeup Work for Absences:** Students have the opportunity to make-up schoolwork due to an illness/being absent from school. Students must submit make-up work within the following timelines:

1. One (1) to three (3) days excused absence – five (5) school days to complete assigned work.
2. Four (4) or more days excused – ten (10) school days to complete assigned work. All work missed through unexcused absences will be graded zero (0).

**Report Cards (see Progress Reports):** Students will receive a report card from the sending school district which will reflect the student's grade from their Career & Technology classes. Students will also receive a report card from RMCTC reflecting their program grade and Social Studies grade, where applicable. In addition, grades are available on the parent portal.

**Student Recognition Night:** Reading Muhlenberg Career & Technology Center hosts an annual Student Recognition Night, which honors our senior students. During this event, senior students in attendance are recognized and may also receive awards that they have earned relevant to their accomplishments while attending Reading Muhlenberg CTC.

## **CAREER & TECHNICAL STUDENT ORGANIZATIONS (CTSO)**

All students enrolled in Reading Muhlenberg Career & Technology Center have the opportunity to participate in at least one Career & Technical Student Organization (CTSO) while enrolled at the CTC. Students who become members in these co-curricular organizations have the opportunity to participate in team building, leadership, community service and social events.

Students also have the opportunity to attend skill competitions where the skills they have learned are "put to the test" against other competitors. These competitions include testing of knowledge and hands-on skills in a variety of trade and leadership events. Students who are fortunate enough to win their events at a district or state competition are able to compete at the national level and travel to locations such as Louisville, KY, Kansas City, MO, San Diego, CA, Orlando, FL, and Cleveland, OH.

### **SkillsUSA**

<http://skillsusa.org>

SkillsUSA is a national organization of students, teachers and industry representatives who are working together to prepare students for careers in technical, skilled and service occupations. SkillsUSA provides quality education experiences for students in leadership, teamwork, citizenship and character development. It builds and reinforces self-confidence, work attitudes and communications skills. It emphasizes total quality at work, high ethical standards, superior work skills, life-long education, and pride in the dignity of work. SkillsUSA also promotes understanding of the free-enterprise system and involvement in community service.

### **Home Builders of America (HBA)**

<http://www.pabuilders.org/>

The purpose of the HBA Student Chapter Program is to give students first hand exposure to the "real world" of the building industry and an invaluable complement to their academic studies.

### **National Technical Honor Society (NTHS)**

[www.nths.org](http://www.nths.org)

NTHS is the acknowledged leader in the recognition of outstanding student achievement in career and technical education. Over 2000 schools and colleges throughout the U.S. and its territories are affiliated with the NTHS. Member schools agree that NTHS encourages higher scholastic achievement, cultivates a desire for personal excellence, and helps top students find success in today's highly competitive workplace.

NTHS members receive: the NTHS membership certificate, pin, card, window decal, white tassel, official NTHS diploma seal, and three personal letters of recommendation for employment, college admission, or scholarships. Students will have access to our online career center including these valuable services: MonsterTRAK, Wells Fargo, Career Safe, and Career Key.

## WORK BASED LEARNING Cooperative Education & Internships RULES / GUIDELINES

1. All Work Based Learning (WBL) students must have school WBL forms completed and sign up for the school Remind App before starting the job/internship. Any student who is less than 18 years of age must also have a transferable work permit.
2. **ABSENT FROM SCHOOL???? – NO WORK!!!!!!!**
  - If you are absent from school in the morning, you may **NOT** go to work in the afternoon. **YOUR JOB IS PART OF YOUR SCHOOL DAY.** If you are at a **medical, social service, or court appointment** in the AM, you **may** go to work that day. However, you must bring a note **from the agency where you were**, to your attendance secretary, the next school day.
  - If you are ill, **YOU** must call your employer to inform him/her that you will not be reporting for work.
  - **IMPORTANT:** If your name is going to appear, for any reason, on your sending school absentee list, you must also **report off to Mrs. Albarran @ 610-921-7301. Failure to report off may result in removal from WBL.**
  - If **school is closed** for a holiday, in-service day, or a snow day, you **DO** go to work on those days, if you are scheduled. If you are not scheduled, you can work additional hours if your employer allows you to work. Labor Laws need to be followed.
  - If you are suspended **out of school**, you may not work at your WBL job. This includes jobs that are scheduled with after school hours.
  - **REPETITIVE ABSENCES** at school or work will result in your removal from Work Based Learning.
3. All WBL students are required to **report to the CTC every Monday.** Any additional classroom time is at the discretion of your program area teacher. You are responsible for communicating this to your employer. On the **first Monday of each month or the first day, you are at RMTC for the month**, you must report to the **Work Based Learning Office**, where you will sign in with Mrs. Hughes. Co-op students will record hours and earnings, and then return to your program area for the remainder of the school day. **Do not forget to bring your check stubs to record your hours and earnings!** Internship students will record hours. **If you miss two monthly meetings, you will be removed from WBL.**
  - Any violations of these rules will result in the following **discipline action:**  
**1<sup>st</sup> violation – VERBAL WARNING**  
**2<sup>nd</sup> violation – REMOVAL FROM WORK BASED LEARNING**
4. When at work, you are guided by and are responsible to your employer. Be sure to follow all of the Employers' rules and regulations because you will be terminated for the same reasons as any other employee. Upon your first week of work, obtain a contact number in case you need to call your supervisor.
5. If your work experience is terminated for any reason, you must return to school the next day, and inform your CTC teacher and the Work Based Learning Coordinator.
6. If you wish to terminate your employment, you must discuss this with your teacher and the Work Based Learning Coordinator, and leave the job properly by giving the employer a two-week notice and a letter of resignation.
7. If you have any questions concerning the rules and guidelines of Work Based Learning, please contact the WBL coordinator at 610-921-7337.
